

XebiaLabs is the market leader for deployment automation solutions. With Deployit, XebiaLabs serves many customers around the globe.

Our mission is to make life easier for both Development and IT Operations by automating the application deployment process. We're convinced that companies need to automate the process of bringing software applications from Development into Production, in order to run their business in an efficient, reliable and scalable way.

XebiaLabs was founded in 2008 and is headquartered in the Netherlands. We design and develop Deployit, the best deployment automation tool on the market. Using Deployit, customers improve the quality and efficiency of their deployments, saving them hundreds of thousands of euros a month. We are an international company with development and sales offices in the USA, France, Sweden and India.

XebiaLabs is part of Xebia Group, which is one of the largest organizations specialized in Agile J2EE consultancy and development with over 200 employees worldwide and 25 million USD in revenue.

To strengthen our team we are looking for a

Senior Java Developer

(Hilversum, Full Time)

- Excellent Java knowledge and technical skills and the motivation to keep up with the latest developments. If a new technology can give us a competitive advantage, we want to know!
- Team-player who thrives in a high-energy, dynamic environment, with experience in working in an agile development process.
- Results-driven: delivering the best possible product at the right time is what counts!
- Ability and passion to work directly with clients, in pre-sales, proof-of-concept projects or joint troubleshooting and bug fixing.
- Experience with Java, Enterprise Java and/or open source products (such as Spring, Eclipse, Maven and JBoss) and knowledge of OO.
- Experience with Java EE middleware such as IBM, Oracle/WebLogic and JBoss is a plus.
- Higher vocational or university education, preferably in IT/technical, ability to think analytically with a strong focus on results.
- Good written and spoken English & Dutch.

What distinguishes us from the competition?

- It's our people! Everyone at XebiaLabs is an experienced professional, driven to succeed.
- It's our passion! Our small team works in startup-mode to deliver the best product possible. Everyone is passionate about the product and contributes to product definition, marketing, sales and support.
- It's our drive to open up the market for deployment automation software. We are defining what this new category of software is going to look like!
- It's our interest in new developments and the leading role we take in innovation and cutting edge software. We have created an extensive program which focuses on developing knowledge among our staff.
- It is our flexible, agile way of working that gives us the delivery and flexibility we need to compete in the market.
- It is our package of employment conditions and fringe benefits that far exceed the sector norm.
